PROFILE SUMMARY

Aspiring Software Engineer with strong foundations in Data Structures Algorithms and full-stack web development. Experienced in building scalable, secure web applications using React, Next.js, Node.js, and MongoDB, with solid backend and API knowledge. Passionate about solving complex problems and currently expanding skills in Generative AI to build intelligent, high-impact software solutions.

TECHNICAL SKILLS

Languages: C/C++, Java, Python, JavaScript, HTML/CSS

Frameworks: React.js, Node.js, Express.js, TailWindCSS, Next.js

Databases & Tools: MySQL, MongoDB, PostgreSQL, Git/Github, VS Code, Postman

Core Competencies: Data Structure & Algorithms, DBMS, OOPs, Computer Network, OS, RESTful APIs, JSON

EXPERIENCE

Web Developer Intern

July 2025 – Aug 2025

Cantilever

- Identified and fixed frontend and API-level bugs, reducing runtime errors by 35% and improving overall application stability.
- Optimized component rendering and API handling, achieving 25% faster load times and smoother user experience.
- Developed a full-stack Travel Buddy application using React.js, Node.js, MongoDB, and Google Maps API, enabling real-time traveler discovery and group planning.
- Implemented secure authentication and modular APIs, improving scalability and reducing trip planning effort by 80%.

Software Development Engineer Intern

Nov 2024 – Dec 2024

BlueStock Fintech

- Improved high-performance platform capability by driving 25% faster API responses through SQL optimization and caching layers.
- Diagnosed and fixed critical backend bugs, cutting system errors by 40% during production usage.
- Engineered secure database queries and optimized client-server communication, enhancing scalability and reliability for IPO processing workflows.
- Contributed to developing multi-module features in Next.js + Express.js, enabling seamless user flow and enhanced platform responsiveness.

PROJECTS

Collage Placement System | *React.js, Express.js, MonogDB, JWT Auth*

[Website](#) | [Github](#)

- * Developed a role-based placement platform supporting students, recruiters, and administrators.
- * Automated job postings, applications, and resume handling, cutting manual coordination by 50%.
- * Designed secure authentication and authorization flows using JWT.
- * Optimized MongoDB schemas and APIs, improving system reliability by 35%.

SkillForge | *React.js, Express.js, MongoDB, Redux Toolkit, Cloundinary*

[Github](#)

- * Built a full-stack peer-learning platform with authentication, leaderboards, and progress tracking.
- * Improved data retrieval speed by 30% via schema optimization and modular API design.
- * Integrated media uploads, notifications, and real-time features, increasing engagement by 40%.

The-News-Hub | *React.js, TailwindCSS, API Integration*

[Website](#) | [Github](#)

- * Created a personalized news aggregation platform with interest-based filtering.
- * Improved content relevance by 20% and reduced information overload by 50%.
- * Increased user engagement by 25% through optimized UI and API handling.

ACHIEVEMENT & HOBBIES

- * Solved 300+ DSA problems across LeetCode and GeeksforGeeks, resulting in improved problem-solving efficiency and coding proficiency.
- * Sports enthusiast: Cricket, Badminton, Table Tennis.

EDUCATION

Maharaja Agrasen Institute of Technology, GGSIPU, Delhi

Bachelor of Technology, Computer Science and Engineering

2022 – 2026

GBSSS NO.-1 MS Park, Delhi

CBSE, Senior Secondary (XII) | 82%

2020 – 2021
